

# Insert for GC Handicap Card

Your index changes after each competition game. The winner's index increases and the loser's decreases by the same amount.

Your handicap changes as soon as your index reaches a trigger point shown in the table overleaf corresponding to a handicap different from your current handicap.

In handicap singles games your handicap changes by 10.

In level singles games the index change is shown overleaf.

Index changes are the same for 7, 13 & 19 point games.

In handicap doubles games your handicap changes by 5.

In level doubles games the index change is shown in the table below

For handicap games the winner's index increases by 10, the loser's decreases by 10 (whether a 7, 13 or 19 point game).

For level play games use the table below to determine the number of points exchanged (again, for 7, 13 or 19 point games).
