

Croquet Tasmania

Best of three Finals when two players are equal after a round Robin

The game already played between the two players in the preceding round-robin event is counted in the Best of three final as per recent WCF procedures.

This play-off procedure is incorporated into **Croquet Scores.Com**

Define the play-off event as new block, best of three and enter the players' names.

Click on the player menu item for each player. Select 'Properties,' and enter the number of wins or losses to be carried forward. These will be included in the block results window.
